Dear The Conservation Fund Hiring Manager,

I am writing to apply for your remote Working Forest Geospatial Analytical Intern position. As a senior Geography and Biology major at the University of North Carolina at Chapel Hill, I'm enthusiastic to apply my technical and communication skills to The Conservation Fund's mission of sustainability for nature, wildlife, and humanity.

What drew me to The Conservations Fund was your company's commitment to providing sustainability and applicable solutions to conserving our forests. I am enthused by the opportunity to work alongside passionate professionals who are dedicated to advancing conservation efforts and tackling the challenges of forest preservation. I am also excited to apply the numerous skills I have learned at UNC Chapel Hill to real-world projects that make a lasting impact on our environment.

Throughout my degree, I have taken many classes on ArcGIS pro, ArcGIS Online, and QGIS where I learned not only technical GIS skills but also problem-solving skills. In addition to my GIS skills, I have experience using R Studio for data analysis, including spatial data processing and visualization. I've also completed a course in web mapping where I learned to make interactive web maps through Javascript, HTML, and CSS. Due to my strong attention to detail, I am also adept at designing map layouts that are clear, easy to interpret, and visually appealing. Through my coursework I have also become proficient in Microsoft Office.

I appreciate your time and consideration. Please feel free to contact me at (704) 980-7936 or [emmaor44@gmail.com](mailto:emmaor44@gmail.com) at your earliest convenience.

Sincerely,

A handwritten signature in black ink that reads "Emily Ormond". The signature is written in a cursive, flowing style with a large initial "E".
